**HISTORY OF THE FORMATION OF THE UNION UNDER  
THE CONSTITUTION**

**with Liberty Documents and Reports of the Commission**

Sol Bloom

This book is the result of the work done by the United States Constitution Sesquicentennial Commission during their preparations, planning and study in regard to the 150th anniversary of the United States Constitution. It serves a dual purpose of containing a report of the Commission's work as well as the special commemorations; and a history of the formation of the Union.

*“This task involved the production of material which should be of lasting benefit toward a proper understanding of the meaning of the Constitution and its place in the history and daily life of the country-of the origins and principles of our nation. One phase of this was to make generally available the great documents themselves, and in the case of the Declaration of Independence and the Constitution to distribute them as facsimiles and in such fixtures as would make them worthy memorials of the commemoration and constant reminders of the all important facts the celebration sought to inculcate. The other phase of this more permanent purpose was to tell the story of the Constitution popularly but accurately, with the accompanying state documents; and also to present in more detailed form a study of the organization of the government under the Constitution.”* General Introduction

The work is divided into four sections: The Story of the Constitution; The Organization of the Government Under the Constitution; Liberty Documents; Celebration of the Constitution Sesquicentennial.
