John Kindt, Senior Editor

ABOUT GAMBLING WITH NATIONAL SECURITY, TERRORISM, AND MILITARY READINESS

This book details authoritative source materials and accompanying historical commentaries documenting the impacts of gambling on U.S. And international security issues, including terrorism issues and military readiness concerns. U.S. Presidential correspondence, as well as U.S. Congressional hearings and statements, are printed in this volume- some for the first time- including the pivotal communiqués which led to the enactment of the 1996 U.S. Gambling Commission, the 2006 Unlawful Internet Gambling Enforcement Act (UIGEA), and various laws impacting American Indians.

Reprinted items include Warren Buffet's insights on the overall negative socioeconomic impacts of legalized gambling. Highlighted is the definitive study on increased crime caused by gambling, which was authored by Professors Earl Grinols and David Mustard (and originally published by Harvard and MIT). Also reproduced are testimonies by well-known officials of the National Coalition Against Legalized Gambling (NCALG), including Tom Grey on socioeconomic issues and Dianne Berlin on consumer protection issues and corruption. Analyses of gambling issues cross the spectrum from the Department of Homeland Security, the Department of Defense, and military personnel - to the Citizens Equal Rights Alliance (CERA), Stop Predatory Gambling (SPG), and One Nation United (ONU).
