Part I-Forward Listing

Part I of the Directory enables users to search for the meaning of abbreviations and acronyms employed in IP literature. This directory offers both new and old abbreviations as well as an extensive range of patent, trademark and copyright abbreviations. This expansion of new abbreviations creates a critical reference guide for students, professors, or law review editors.

	PMM BI
PIA	Public Interest Intellectual Property Advisors, Inc.
	Swiss Federal Act on International Private Law, 1987
PIN	Personal Identification Number
PIO	Public Information Office
PIPLA	Philadelphia Intellectual Property Law Association
PIPRA	Public Intellectual Property Resource for Agriculture

From the Foreword

About Jon R. Cavicchi

Professor Cavicchi, widely acknowledged as the global uber-meister of patent information searching and mining, has been a world leader in IP information management for nearly two decades. As the IP Librarian at the University of New Hampshire School of Law's IP Library (the sole academic IP librarian and library in the Western Hemisphere), he has guided generations of students in research, writing and professionalism. He single handedly created and launched the internationally acclaimed on-line IP Mall, and likewise has established a highly innovative and unique patent database mining educational program at the University of New Hampshire School of Law, the only one of its kind in the world, that guides students from the fundamentals of patent database mining to intensive patent landscape analysis of cutting-edge innovations in health and agriculture—for example HIV vaccine-related biotechnological innovations.

Patent Reform: A Legislative History of the Leahy-Smith America Invents Act

Edited by William H. Manz

What is the Patent Reform Act? The Leahy-Smith America Invents Act (also known as the Patent Reform Act of 2011) makes the most significant changes to U.S. patent law since 1952. Among the changes made by the Act, the most significant and controversial is the switch in patent priority from “first to invent” to “first to file.” This change grants a patent to the first person to file a patent application, regardless of the actual date of the invention.

What does this legislative history include? The historical 5-volume set includes the text of the Act, all bill versions and mark-ups, related bills, relevant reports and hearings, House and Senate debates, presidential remarks, and Congressional Budget Office reports.
