## **ENQUIRY INTO THE VALIDITY OF THE BRITISH CLAIM TO A RIGHT OF VISITATION AND SEARCH OF American Vessels Suspected to be Engaged in the African Slave Trade**

By Henry Wheaton

Wheaton was a distinguished attorney and diplomat. His *Elements of International Law* (1836) established him as America's foremost authority on that subject. Published simultaneously in the United States and Great Britain, *Enquiry* criticizes Britain's seizure of American vessels engaged in the Atlantic slave trade. Although the importation of slaves was prohibited by law at this time, Wheaton rejected the right of other nations to enforce this American law. Instead of serving the United States, he reasons, such actions are a violation of its sovereignty.

**FREE MEN ALL**  
**The Personal Liberty Laws of the North**

By Thomas D. Morris

The Personal Liberty Laws reflected the social ethical commitment to freedom from slavery, and as such, were among the bricks that laid the foundation for the Fourteenth Amendment. Morris examines those statutes as enacted in the five representative states (Pennsylvania, New York, Ohio, Wisconsin, Massachusetts) and argues that these laws were an alternative to the violence allowed by the southern slave codes and the extreme abolitionist viewpoints of the North.

## PLATO'S LAW OF SLAVERY IN ITS RELATION TO GREEK LAW

By Glenn R. Morrow

The presence of slavery in the Laws has puzzled and distressed many of Plato's admirers. However, before passing judgment on Plato's attitude toward slavery, we must first have a clear idea of the legal status of the slave under Plato's law, and compare it with the slave's position under Greek law of Plato's day. This work sets out to do just that, as well as to provide a good account of Greek law, much of which has been lost over the course of history.

## RACE TRAITS AND TENDENCIES OF THE AMERICAN NEGRO

By Frederick L. Hoffman

A fascinating study of the circumstances of African-Americans during the first thirty years from the emancipation of slavery in the United States. This analysis is divided into chapters that examine population factors, vital statistics, anthropometry, race amalgamation, and social and economic conditions and tendencies.

The author concludes that the 1896 abolition of slavery did not demonstrably improve the plight of African-Americans in the United States. Hoffman was the statistician to the Prudential Insurance Company of America at the time of this publication, and as such collected vital and social statistics regarding the subject.
